## WE don't sell—"toadstools" as "mushrooms." We refund when you are disappointed.

That's a little sentiment borrowed from the makers of JAP-A-LAC—the best floor finish of them all, and the best finish for other things, too. Easy to work, economical, cheap, handy, satisfying—or your money back without squirming.

## This is the Place to Get the Famous "Wiz-zard" Mop

That's the three-cornered mop with the "elbow joint" handle that gets into the corners and other places the ordinary mop can't and don't reach. A mighty handy contrivance. We also handle the oil that you soak it in to make it GET the dust instead of merely "stirring it up." If this mop is NOT a part of your housekeeping outfit—just give it a trial on your say-so. If you're not delighted—bring it back and get your money.

We also handle the O-CEDAR mop. It's another good one, of a different shape. Some prefer one, some the other. We're glad to handle BOTH to help you get satisfaction.

Many of our citizens seem to be of the impression that hogs cannot be kept in the city. The hog ordinance passed by the Board of Aldermen last fall only prohibits the keeping of hogs in a pen or sty within 300 feet of the public highway, for a longer period than three days, between April 15th and September 15th each year. We are advised that the ordinance does not prevent any person from keeping hogs in a larger lot when the lot is not permitted to become noxious or offensive.
